

# P.A.L. Vertical Wheelchair Platform Lift

## **SUPERIOR VALUE**

The P.A.L. (Personal Accessibility Lift) is constructed of stainless steel for the ultimate in corrosion protection.

The P.A.L. vertical platform lift provides a safe and reliable means of access for your home or commercial building. The P.A.L. presents an affordable solution with a pleasing appearance and is designed for use in either indoor or outdoor applications.

At Savaria Concord we understand you want high quality, but also appreciate you want superior value for your money. The P.A.L. features a smooth hydraulic drive utilizing a state-of-the-art battery back-up system that provides uninterrupted service in case of a power failure.
